

# Streuinsen ( $f < 0$ )

virtueller Brennpunkt  
neg. Dioptrienzahl  
Brillenglas mit  $d < 0$

# Abb. mit Streulinse

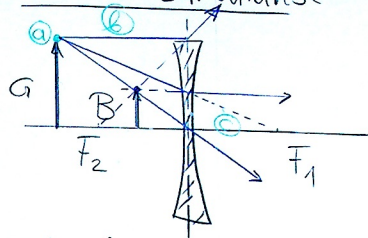

Abb. gl.:

$$f = 3 \text{ dm}$$

$$g = 4.4 \text{ dm}$$

$$\frac{1}{b} = \frac{1}{f} - \frac{1}{g} = -\frac{1}{3} - \frac{1}{4.4} \Rightarrow b = -1.7$$
